Rhineland, Wisconsin 54501

Hello Club Members,

December 2025

Actual snow accumulation in early December? We aren't used to this! Things are looking up for an earlier start to the snowmobile season this year. With that, a reminder that trails are **NOT** yet open. The club will make an official announcement when that time comes.

Before they can open, they need some work. This **Saturday, Dec. 6** is the annual trail cleanup day. Please meet at the groomer shed at the Sugar Camp Town Hall property at **8am** if you would like to chip in and help for a few hours.

People will be divided into groups and each responsible for making sure trails are free of down trees, branches blocking signs and that signs are in place. Transportation down trails is needed along with a chainsaw for each group and a large hammer to pound sign poles in if necessary.

If you participate, we welcome you to join us afterwards for a hot meal at and sponsored by Rummy's. Food will be served around 1pm. Thanks Rummy!

It's never too early to jot the Jambo down on your calendars. **February 21** this year! We are already excited about it. We will once again host the event on the lake in the tent and have a few other new upgrades to the event this year.

Other than that, stay tuned for an official trail opening announcement. We will email and post on Facebook when it happens. Until then, pull your sleds from storage, grease them up, dust off your riding gear and get ready to buckle your helmet.

We hope everyone has a great and safe year on the SCSC trails. And remember, when you're out and about, please stop at the Sugar Camp businesses to support them after two tough winters.

We hope to see you at the next meeting, Tuesday, December 9, 7:00 p.m., at the Sugar Camp groomer shed.
